

EDIS ONE

STREET ARTIST

About the artist

EDIS ONE

He was born in Portugal, Lisbon, in 1990 and has always been connected to the world of the Arts. The name Edis One appeared in 2007 as a simple tag. Since then, the artist has used his pseudonym to spread his own brand and work.

Sustainability **Mission**

- Urban art as a tool for environmental awareness.
- Directly support nature conservation, primarily through its partnership with WWF Portugal.
- Promote responsible consumption and ethical production by linking art with conscious activism.

Highlights

2016

PROJECTS

EXTINCTION ART PROJECT

Launched by artist Edis One in 2018, the mission behind this project is to use urban art as a means to increase awareness of one of the greatest extinction events that our planet has ever suffered.

A detailed illustration of a kingfisher bird with a blue crest, back, and tail, and a bright orange-red breast. The bird is perched on a brown, textured rock. The background of the banner is light green with faint, repeating text like 'EXTINCTIO', 'SAVE OUR NATURE NOW', '600 MILLION BIRDS LOST', and 'WORLD'.

PROJECTS

NEW BORN 2025

Inspired by a hypothetical scenario where the world, as we know it, has no solution left and everything we had has been lost, NEW BORN emerges as a call to start over. It is a story of rebirth, where humanity and nature are given the chance to begin anew, learning from the mistakes of the past.

Wild Art Series

Photograph local species or cultures and leave your mark on a mural. This is the goal of WILD ART.

Show the entire creative process of the artist, bring together and sensitize the communities through a series of episodes on Youtube.
